FOR IMMEDIATE RELEASE

State Route 37--Between SR-29 and SR-121 SR-37 Reopened at Approximately 1:30 a.m. Major Work Completed-Weekday Overnight Closures Canceled

SOLANO and SONOMA COUNTIES – The California Department of Transportation (Caltrans) reopened State Route 37 (SR-37) between State Route 29 and State Route 121 at approximately 1:30 a.m. on Monday, September 29.

SR-37 Reopened at 1:30 a.m., Monday, September 29

Crews successfully completed two weekends of major maintenance and paving on SR-37. The 1:30 a.m. reopening was ahead of the originally scheduled reopening time of 5 a.m. on Monday, September 29.

Overnight Weekday Work-Canceled

During this past weekend, Caltrans was also able to complete the bulk of the project work, and has canceled the remaining overnight weekday closures originally scheduled for this week. The remaining work will be performed without full highway closures.

Those week night closures which are now canceled were originally scheduled for Monday night, September 29, until Friday night, October 3, from 10p.m. to 5 a.m.

Major maintenance-benefits 40,000 Motorists Daily on SR-37

During the work, crews performed major maintenance and repaving of approximately seven miles of eastbound and westbound SR-37 between SR-29 in Solano County and SR-121 in Sonoma County. The work required two weekend closures of SR-37. The first weekend of work was completed on Saturday, September 20.

The project maintains a stretch of SR-37 which is utilized by approximately 40,000 motorists every day.

Caltrans appreciates the public's patience as we work to maintain California's highways.
